

COMPARISON OF TWO TYPES OF TRAININGS

BLACK BELT – „in class“

- Personal meeting - the opportunity to experience everything live
- Complex service - Renting laptops with statistical SW
- Simulation - copying real environment of services / manufacturing
- More intensive FULL days of training all day.
- No technical equipment required before the training.
- Real workshops and discussions 10 hours of online coaching after training
- Ability to share know-how within a group during training

Common elements

- Certification as part of the fee (no extra costs needed)
- Training material (we also send materials before the training in printout if required)
- Satisfaction garrantied – we will return 25% of the fee back in case of subject dissatisfaction

BLACK BELT - online

- A modern and efficient form of digital collaboration and problem-solving tools
- Teamwork exercise as part of training (pair discussion)
- Individual coaching and test during training
- Anywhere - no need to commute to the training site
- Flexibility in workload - only half a day - More emphasis on preparation, testing.
- Intensive involvement also between modules needed
- 10 hours of coaching during training + 10 hours of coaching after training No travel costs on the client
